Anyone knows where to get it? I was supposed to get a copy from NEC as well. Is it possible to have both the software and the disk ?Q: How can I know if a bot has connected to my discord server? I would like to know if there is any way of knowing if someone is using my bot in discord. I have tried using if message.channel.id == 123: return True to check if someone is in my discord server but it only works sometimes A: Use is_bot to check if message.author is a bot. Return True if the given user is a bot. @bot.command() async def check_bot(ctx): user = ctx.message.author if not user.is_bot: return await ctx.send("Not a bot") else: return await ctx.send("Bot") 1. Field of the Invention This invention relates to a method for managing a power source system, a computer-readable medium storing a computer program and a power source system having a power source and a power system for supplying power to an electrical load. 2. Description of the Related Art In recent years, attention has been paid to a power source system that uses a solar cell as a power source. The power source system has a power source, such as a solar cell, that converts solar energy into electric energy and a power system that converts the electric energy into direct current (DC) power and supplies it to the load. The power source system requires a charge and discharge controller (referred to as "controller" hereinafter) that controls the charge and discharge of the electric power (referred to as "charge-discharge" hereinafter). The controller is required to maintain the charge and discharge efficiency of the solar cell and reduce the internal resistance of the solar cell, that is, prevent the degradation in output characteristics of the solar cell. To accomplish this, the controller sets the control condition in accordance with the output voltage of the solar cell in the charge-discharge control. Since the power source system is used as a power source for supplying power to an electrical load such as a vehicle, the controller is required to be able to continue the charge-discharge 82157476af
